

Vital

Enterprise Study's VITAL Nurse and Midwife Revalidation tool has been designed in conjunction with Oxford University Hospitals and Southern Health NHS Foundation Trust.

Used by over 10,000 NMC registrants and their employers, ranging from NHS trusts, Healthcare Organisations and Agencies to meet the current and future requirements of the NMC, as set out by The Code of Professional Standards.

Do you know how many of your workforce are at risk of not renewing their NMC membership? What impact would that have to your organisation?

Gain huge organisational benefits by aligning all your employees into the Vital ePortfolio system and tapping into real-time cross organisational data analysis and reporting features.

Benefits for the Organisation

- Full data transparency
- Real time compliance data
- Mitigate risk of organisational non-compliance
- Stop, track and deal with potential issues before they arise
- Organisational, Divisional and Team reporting and Dashboards
- Targeted communications through Alert feature
- Assists organisations in planning training pathways
- Encourages thorough reflection and embeds learning
- Appraisal integration

At the heart of **VITAL** is a simple to use, interactive portfolio, helping nurses and midwives record CPD and reflective conversations aligned with the 4 key areas of The Code.

“The richness of the information provided by Enterprise Study stands out. I can generate a few key reports for managers whilst reporting at a team level, this is very powerful and allows for strong governance”

~ Ian MacKenzie, Head of Learning, OUH

“This is brilliant and IT at its best for a non-technical person!! Easy to use, I can download if I want a copy myself, add things, intuitive and great to see. Well done to your team.”

~ Katie, Portfolio user, OUH

Use Vital CPD in conjunction with the Enterprise Study award winning Appraisal, Compliance and Learning platforms to unlock the full potential of performance and learning data within or your organisation.
